VANNERS

- Vanners has been weaving luxurious fabrics for men's and women's apparel and accessories since 1740.
- Owning their own yarn processing and weaving operations allows them to monitor every stage of the production cycle to ensure first class results every time.
- Throughout the twentieth century it remained one of Europe's most prestigious silk weavers, specialising in regimental stripes and rich jacquards. Today they are known for their exclusive '350 End' jacquards and the quality of their repp stripe.
- Sourcing the raw materials from the best producers worldwide, using rich mixes of linens, cottons, cashmeres and wools, their special 7 ply 'pure dye' mulberry silk in the weft, with over 360 weft and 20 warp colours, along with their heritage and drive for perfection, they create a product which sets the standard for English elegance.
